October 10, 2005

Dear Business Neighbor:

I have been a resident of New Hyde Park for 35 years and became a Greater New Hyde Park Chamber member shortly after starting my air and water purification business in 2001. As it relates to the Chamber, my only regret is not joining sooner. In my home-based air/water purification business and as a Realtor at ERA Caputo Realty, the relationships I have made dealing with proactive members of the business community have in plain English, "increased my bottom line."

I've also had the pleasure of working along side other members and seeing them benefit from our organization. As the Chamber continues to grow, it gains strength in its interaction with local government. There is "strength in numbers." A well organized Greater New Hyde Park Business Community brings increased value to both its businesses and residents.

Our Web site marketing campaign raises consumer interest and helps put the Greater New Hyde Park Business Community on the map as a great place to live and do business. We are asking our residents/customers to "Visit Us-Every Day," promoting the convenience of local businesses and the special services Chamber members are willing to provide.

I urge anyone that does business in our town and the surrounding area to join. Get involved and reap the benefits of Chamber membership.

Sincerely & enthusiastically,

HEALTHY LIVING ASSOCIATES, INC.
